PERSONAL

A. F. GEGAN, traveling representurve of the Hercules Powder company, arrived this morning.

MRS. B. H. MITCHELL has retirned from Arkansas where she was called by the filness of her mother

R FRED BROWN the broker haves this evening for New York where he expects to remain for the

ED J ERICKSON returned from Heno by this morning's train. MR. AND MRS. W. W. BOOTH returned this morning from Reno, a sere they attended the republican

conferences. F A SAWYER deputy United States marshal, was a visitor to Tonopali today, charged with serving subpoenas. He will return this

W. R. GHISON, the attorney, who was one of the Nye county repreentatives at the republican confernon, is back from the riverside city. MHS C . BOAK did not return with her husband, as she will remain

12 1600, 73, 1300, 72, 1500, 71; RICH SAMPLES

for some time.

William Hayes, supermtendent of the Nevada Shields Mines company came in from Jefferson Canyon last evening with longe blocks of sulphide ore which carry values of \$208 a ton. The samples were taken from the bottom of the winze which - down thirty feet from the 400 named. The vem has hardened into quartz and the whole orebody appears to be making into a mass of butherade carrying astonishing valurs. The company proposes to exand the small tunnel below the 400 which was run for a distance of thirty feet by John Seevers, the turmer owner when he was engaged in taking out a small shipment that ran \$1,000 to the ton. This tunnel will be extended to the ledge which will give the company 50 feet of backs. The orebody is twenty-five feet wide and raises between the three tunnels are all in ore

The company has opened its of tices in the place formerly occupied by the Cobwob and furnished them in very attractive style. The samples brought in last evening are displayed on a table at the front for the information of those who desire to see the kind of stuff carrying the phenomenal values of the Silver Shield. One piece weighing probably fifty pounds is filled with black metal and ruby silver which does not require any assays to give an idea of the bonanza of Jefferson

The undersigned desire to convey oir thanks to the kind friends who Midway-1000, 18; 1000, 20; 1000, copressed their sympathy in various ways during our recent bereavement, MRS E. R. ROCKSTEAD, MISS CARMEN ROCKSTRAD, MISS CARRIE ROCKSTEAD.

A second contract of the second contract of t You Can Expect More From **GOODYEAR TIRES** In satisfaction, in untroubled travel, in plain usefulness, they'll deliver they are built to deliver just such a return on your investment.

Such tires are good for you to use. They will serve you as heartily and as loyally as tires can. They will yield you more for what you pay than is the rule.

As a traveling companion to a Goodyear Tire— A Goodyear Tube is the right kind of a rube to put inside your casing if you want it to deliver its maximum mileage. We can tell you more about them.

Belting, Hose and Vulcanizing CAMPBELL & KELLY

AMUSEMENTS

SHIRLEY MASON AT BUTLER TONIGHT.

Shirley Mason, the diminutive and dainty star who plays the leading hole in "The Final Close-Up" which will be shown at the Butler tonight, has had many "screen" adventures, but she declares this is the first time she has ever been assigned to capture a couple of thugs with an iron frying pan.

Miss Mason appears in the role of Nora Nolan, a department store clerk, who spends her vacation at a seaside town. At the hotel where she stays there is a man named Gregory who was there presumably in the train of Emily Webstervelt Moore, a society girl, but who actually is a thief. A robbery occurs and little Nora, whom they have discovered is just a working girl, is accused. To show them she is innocent Nora captures the rogue in the act of robbing the hotel safe, her only weapon being an iron frying pan. Her sweetheart then proposes to her and she reminds the boy that in the movies they have what they call "the final close-up." He then takes her in his arms. Added to the feature will be a Ford Educational Weekly and a Mutt & Jeff Tomorrow, William Farnum, in Zane Gray's dramatic story The Lone Star Ranger," a romance of the great southwest

in the crosscut on the 1100 foot level where the Halifax company has been concentrating its energies for some time. The discovery is very creditable to the seological deductions of Mr. John W. Sherwin, general manager, and Herman Budelman, mine manager, who have been giving this property their close attention in the one of solving the problem of why ay ore did not occur where trachyte bounded. The fact that the Halifax management succeeded where so many others of their predecessors, representing the highest engineering talent of the camp failed, is likely o prove of vast importance to the entire eastern area.

The Mizpah Ex has not been operted on company account for four years, when a lease was granted to he Tonopah Mining company which colinquished it when the Halifax sought leasing privileges with an op-
